

# MOTORIZATION

## LuXout AC Wired Motors

## LuXout AC Range

### AC MECHANICAL LIMIT MOTORS

---

- Quiet operation
- Simple limit setting and adjustment
- "Slim Head" design minimizes light gap

### AC RF MOTORS

---

- Favorite position
- 2 way RF communication
- ARC™ protocol featuring efficient programming and bi-directional communication

LS-150-AC

# MOTORIZATION

# LuXout AC Wired Motors

## FEATURES

Electronic  
Limit Switch

Favorite  
Position

433MHz  
Bi-Directional

Quiet  
Operation

## APPLICATIONS

Designer Roller  
Shade

## SPECIFICATIONS

	Voltage	Torque	Speed	Motor Length
LS-150-AC	110-120	6.0Nm	24rpm	21.18"
LS-300-AC	110-120	10.0Nm	21rpm	29.67"

# MOTORIZATION

# LuXout AC Wired Motors

## Regulatory Compliance

Do not dispose of in general waste. Please recycle batteries and damaged electrical products appropriately.

Rollsafe Acmeda declares this equipment is in compliance with the essential requirements and other relevant provisions of the following directives:

2014/35/EU	The Low Voltage Directive
2014/30/EU	The Electromagnetic Compatibility Directive
2014/53/EC	R&TTE Directive
UL 325:2013	Door and Window Operators and Systems
CSA C22.2#247	Operators and Systems of Doors, Gates, Draperies and Louvres
2011/65/EU	RoHS Directive

### Statement Regarding FCC Compliance

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

### Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
